

Creative Use of Natural Resources at Library Workshops

To acclimatise students on sustainable ways to minimise global warming, a series of workshops and interactive activities were organized across all BFA libraries in July, focusing on sustainability and environmental responsibility. Students participated in various sessions on reducing the use of plastic by creating newspaper bags and repurposing old cloth into reusable bags.

In light of recent floods and cloudburst incidents, libraries organized quiz competitions, essay writing, and poetry sessions focused on the water cycle. It was incredible to see the diverse and creative ideas presented by the students on the ways of preserving water, including handmade models of rainwater harvesting.

Adding Colour to Anganwadi Centre at Sultanpur

Children & Staff sharing joyful moment as received the festival chart

During a routine visit at the BFA-run library at Govt. Primary School, Sultanpur in May 2024, staff at the Anganwadi Centre located on the school premises requested pictorial charts to make teaching more engaging for the tiny tots. When the school reopened in July, BFA fulfilled their request by providing colourful learning charts to the Anganwadi in the presence of the school principal. The day was filled with interactive sessions and fun games.

Super Saturday: Threads of Love - Rakhi with a Difference

Books For All had the privilege of participating at Adobe's Super Saturday Event, organized for their executives, spouses, and children on August 10, 2024. The theme of the event was 'Threads of Love - Rakhi with a Difference', and BFA delivered a memorable experience through storytelling and Rakhi crafting led by resource person, Ms. Seema Vaini Mukherjee. Ms. Mukherjee shared the story of Raksha Bandhan, using puppets to capture the children's attention and effectively conveyed the festival's message. She then guided both children and parents in crafting their own Rakhis, making it an engaging and interactive session. It was truly a wonderful event, and we extend our heartfelt thanks to Adobe's CSR Team for inviting Books For All to be a part of it.

Designing His Own Destiny: BFA Sponsored Sagar - Draws ₹35,000 Salary

Books For All continues to deliver on its promise of 'Making First Generation Learners Job Ready'. We are thrilled to share the story of Sagar Prasad from Village Bhangel, Sector-110, Noida, who has recently joined Gamakano Pvt. Ltd. as a game designer with a salary of ₹35,000. This is truly heartwarming for all his well-wishers at BFA.

Sagar's journey with BFA began when he attended one of its Career Counseling Melas at Bhawani Shankar Inter College, Sector 46, Noida. He expressed his passion for motion graphics, inspired by his love for animated movies. However, Sagar faced significant financial challenges in achieving his passion as his father, a daily wage earner, was unable to support his career aspirations. Recognizing his potential, BFA enrolled Sagar at MAAC, a design institute, at Sector-15, Noida.

Despite the initial low salary in his first job, Sagar remained dedicated, even using his first ₹15,000 paycheck to buy a gold ring for his mother. He also took every opportunity to further enhance his skills in motion graphics. Today, as he secures a position with a higher salary of ₹35,000, we are filled with immense pride and satisfaction. Sagar's success story is a shining example of what can be achieved with determination and support. We extend our heartfelt thanks to our donors and partners, whose generosity makes it possible for first-generation learners like Sagar to turn their dreams into reality.
